The screenshot shows the 'Withdrawal Whitelist' interface. At the top, there is a header with a back arrow, the title 'Withdrawal Whitelist', and a plus icon. Below the header, there is a section for 'Wallet Address' with a 'NEW Blockchain Domains' badge. The main content area is titled 'ADD WALLET ADDRESS TO WITHDRAW' and contains a '+ Add Wallet Address' button. A modal window titled 'Wallet Address Details' is overlaid on the screen. This modal has a close button (X) in the top right corner. It features a 'SELECT NETWORK' section with an information icon (i) and two options: 'BEP2' and 'BSC'. The 'BSC' option is circled in red, and two red arrows point to it from the text '*Important*'. Below the network selection is a 'BNB WALLET ADDRESS' section with a QR code icon. A red box highlights the input field, which contains the text 'Binance Coin Address' and 'Paste BNB Address Here'. Below this is a warning message: 'Sending to a non-BNB wallet will result in lost funds.' At the bottom of the modal is a 'WALLET NAME' section with a text input field containing 'Wallet Name'. A large blue 'Continue' button is at the very bottom of the modal.

Step 14

Now you will need to verify a secret code that has been sent to your Google Authenticator app. Memorize this code and go back to Crypto.com app and type it in and confirm.

Step 15

**Wait on your BNB to
be deposited in
your MetaMask
Wallet**

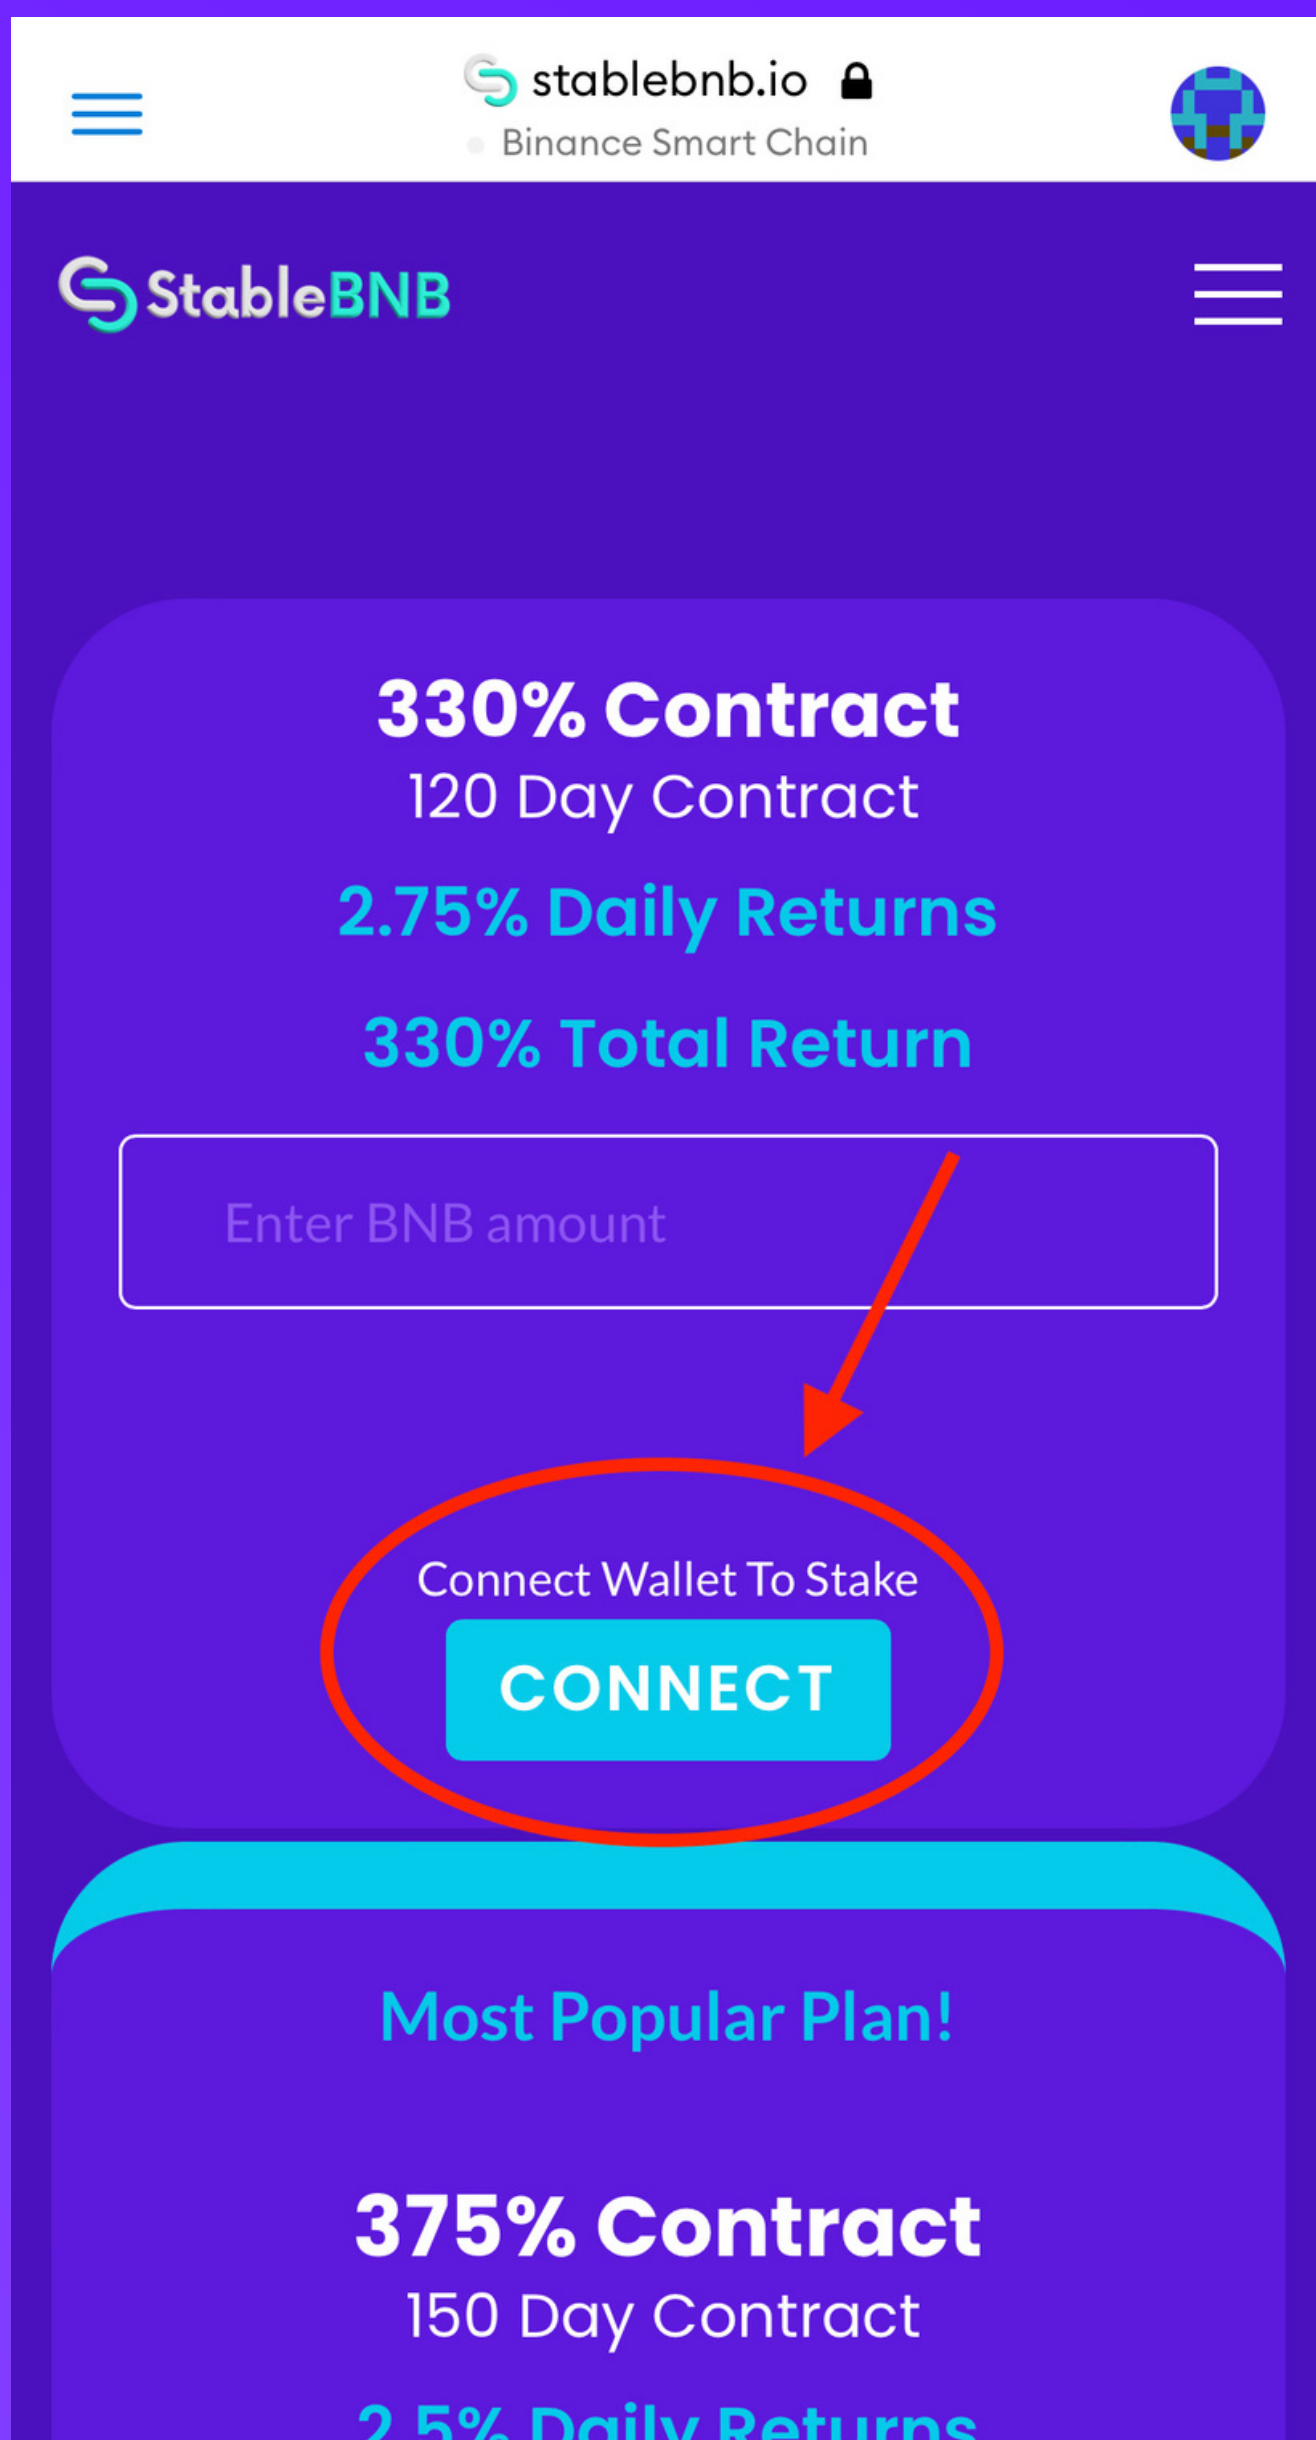

A vertical white line with a small cyan circle at the bottom, positioned to the left of the title.

Step 16

Once your BNB has been deposited in MetaMask, you will need to tap on the 3 lines at the top left of MetaMask Wallet. Once there, tap Browser. Then you will either type in StableBNB.io or paste the referral link you were given.

Step 17

Tap Connect

Step 18

Once connected, simply choose which contract you prefer and type in the amount you want to stake and tap stake. (Keep in mind, you need to leave about 0.001 BNB in your MetaMask wallet to cover gas fees).

Congratulations
