**MTW COIN smart contract is a computerized transaction protocol that automatically implements its terms. A smart contract is the same as A common contract , they all define the terms and rules related to the participants, Once the contract is started, it can run in the way it is designed.**

**High availability-trusted network structure, user assets , intrinsic value and high level of decentralized consensus comes with an improved reward distribution mechanism DPOS consensus based network uses democratic voting to create A governance structure for community autonomy to achieve.**

**How We Explain  
MTW COIN Smart Contract ?**

## FOREX TRADING

The foreign exchange market is a global decentralized or over-the-counter market for the trading of currencies. This market determines foreign exchange rates for every currency. It includes all aspects of buying,

## CRYPTO TRADING

In simple terms, a cryptocurrency exchange helps in the trading of cryptocurrencies for assets such as digital (Bitcoin, Ether) and fiat currencies (Indian Rupee, US Dollar). ...

## INTERNET OF FUTURE

The Internet of Things (IoT) is without question at the beginning of its golden age. Various prognoses forecast that the number of connected devices could.

•There have to be reasons that you get up in the morning and you want to live. Why do you want to live? What's the point? What inspires you? What do you love about the future? If the future does not include being out there among the stars and being a multi-planet species, I find that incredibly depressing.
